

The appearance of the tribute band ROSANNA wasn't as simple as the foundation of the Californian band TOTO (existing from 1976 to 2008). First guitarist Gunnar Zerbst had to look for top-class musicians, who would be able to cover such sophisticated songs like "Rosanna", "Hold the line", "Africa" and "99" or to reinterpret these songs.

ROSANNA, this are seven professional musicians, who have more than 100 years stage experience at their command. The appearance of the band is based on the wish of musical challenge, which is asked of every player in TOTOs' music. Only experienced musician artists are able to implement it live. ROSANNA sets value on disclaim of sequenzers and midifiles .

Beside the well-known Hits ROSANNA presents ballads like "I won't hold you back", rock songs like "White sister", pop songs like "Stop loving you", instrumental songs like "Child's Anthem", groovy songs like "Georgy Porgy" as well as medleys inviting to dance.

ROSANNA sets oneself the target to revive the musical pretension as well as the spirit of TOTO international and presents a real Party-Live-Event.
